

U14 Ladies' Gaelic Football Overview 2020

Declan Carvill (Manager)

The 2020 season started with some strength and conditioning sessions in St Mark's before outdoor training began. From our first training session we had a great turnout of girls with an average of twenty plus girls at every session. Our first friendly match was away to Carrickcruppen where we could see that we had a good base on which to build on. Then the long Covid break and when we returned there was a few additions to the management and coaching team and so the season really began. We had a few defeats in the league until the girls finally started to find their feet and the training regime really started to show with two great championship wins against Rostrevor and Bredagh B until once again Covid brought all matches to a halt. This U14 team is going from strength to strength and in my opinion has not reached anywhere near its full potential yet, this is due to the girls commitment to their training and also to the selfless commitment of their coaches Paula Fegan, Kate Kelly, Ciara Downey, Ronan Magee and Martin Carr who I owe a big thank you to.
