

Cumann Pheadair Naofa

**St. Peter's GAA Club, Warrenpoint**

16<sup>th</sup>. February 2022

A Chairde,

The Management Committee of the club held a meeting on Tuesday 14<sup>th</sup>. December to discuss the operation of Players' Injury Benefit Scheme.

The maximum grant which we can claim from the scheme is €4,400 and with medical expenses rising this would not cover the cost of most operations. The committee took the decision that the maximum expenses which the club will give towards player injury treatment or operation will be £6,000 (including the €4,400 and VAT) to cover the operation, consultations and physio treatment where necessary. Should the cost of treatment exceed £6,000 then the unit to which the player belongs or others may raise the balance by organising an event(s). However wthe Management Committee would not be sanctioning an operation or supporting expenditure in excess of £6,000 until the funds are raised

We would require all receipts (not invoices) relating to the operation and associated expenditure prior to releasing funds.

We wish you all well for 2022 and sincerely hope that no serious injury will be incurred by anyone during the season.

Is mise le meas,

Runai
