

## **FFG Season 2024**

We started off with a very good pre-season, which had us in a good footing going into the league campaign.

Indeed, a good league campaign was had, winning 8 and drawing 2 of our 18 league games.

Most of our panel played games throughout the year, and we were able to give game time to 7 players who hadn't to date played any senior league football.

Three of these lads played minor league Football also this year.

Our championship campaign, although confident going into, our form / potential didn't materialise.

Two losses and one win, saw us exit at the end of the second round.

Our reserves played 9 league games out of a possible 18 and had 3 walkovers.

No team in the reserve league fielded for all 18 matches, which has become a trait unfortunately for reserve football.

Reserves also relied heavily on minor players with 7 lads also stepping up from time to time to help out and play.

Without change of rule I believe more games would've been walked over for numerous teams not just our own.

The reserves lost their championship match to a strong Clonduff team and this brought our season to an end in early August.

Next season, we hope to make progress with what is a young and evolving team, both with regards to Senior league & Championship and Reserve Football.
