

Social Committee Report

2024 was a positive year with 30 functions booked throughout the year as well as the club being used for our Health Initiative Circuit Classes, Club Training and Irish Dancing during the week.

To all the staff that have worked throughout the year, there are too many to mention, for the fear of leaving someone out, I thank you for your great work. A special mention to Gareth McClorey, for keeping the club WiFi on the go.

A lot of work goes on in the background to keep our club and in particular the social club as a positive and valuable cog in the big machine. I would like to thank everyone who has helped in any way in making 2024 a success. From lifting stock from O'Reilly's to stocking the bars. To setting up tables and washing table cloths. To collecting tables and chairs. Without this help, the social club would not be here. To Ann, who cleans the club, maybe twice in one weekend depending on bookings, we would be lost without you.

Finally, the work that Aisling McGivern did on all aspects of the social club both with the circuits class to also helping with the social club and functions will be dearly missed. Aisling was involved in many things in the club and was at the forefront to what was good about our club. Like the other roles she took on, she will be greatly missed.

We look forward to greeting our members in 2025 and hoping that they will avail of the facilities for any celebration or function they have.
